

Homeowners Insurance Cheat Sheet

Nevada & Colorado

What your policy covers, what it doesn't, and what most homeowners don't realize until it's too late

✓ What most homeowners policies include

- Dwelling (the structure of your home)
- Other structures (garage, fence, detached buildings)
- Personal property (furniture, clothing, belongings)
- Personal liability (injury or damage to others)
- Loss of use (temporary housing if your home is unlivable)

Coverage depends on your limits, deductibles, and endorsements.

⚠ What is NOT automatically covered

- Flood damage
- Earthquake damage
- Sewer or drain backup (unless added)
- High-value items (jewelry, art, collectibles have limits)
- Business use from home

These are the gaps that cause the biggest surprises during a claim.

🚫 3 mistakes homeowners make

- Choosing the lowest premium instead of the right coverage
- Not updating coverage after renovations or major purchases
- Underestimating the true cost to rebuild the home

Quick coverage check

Do I know my dwelling coverage amount?

- Would it fully rebuild my home today?
- Do I have enough liability coverage?
- Are my valuables properly covered?
- Do I understand what's excluded?

Most policies look fine... until you actually need them

Many homeowners don't find out what their policy actually covers until they file a claim.

A quick review now can prevent costly surprises later.

Want a second set of eyes on your policy?

I offer a free, no-pressure coverage review where we walk through your policy and identify any gaps or opportunities to improve it.
